

93 blocking agent and a platelet inhibitor; and
administering said single dosage unit to a patient.

Please add the following new claims:

14. A method of making a medicament for treatment of cardiovascular disease comprising formulating a single dosage unit consisting essentially of a beta-adrenergic blocking agent and a platelet inhibitor.
 15. The method of Claim 14 wherein said platelet inhibitor is aspirin.
 16. A medicament dosage unit consisting essentially of a beta-adrenergic blocker and aspirin.
 17. The dosage unit of Claim 16 wherein said beta-adrenergic blocker is selected from the group consisting of atenolol, propranolol, timolol, and metoprolol.
-

REMARKS

Applicant thanks the Office for the attention accorded the present Application in the January 31, 2002, Office Action. In that Action, Claim 7 was objected to because the term "metoprolol" was misspelled; Claims 9-13 were rejected under 35 USC §112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention; Claims 1-7, 9-11 and
